

Bimetal Thermostats

Cross Reference

- Ideal for controlling heating devices to avoid frozen pipes and other low temperature issues.
- Turns on at approximately 39°F, and turns off when the temperature rises.
- Two receptacles to control devices simultaneously.
- Stocked and shipped directly from Eau Claire, WI, making it a more available option than competitors.
- Universal replacement option for current models in the marketplace.
- UL and cUL certified.
- Private labeling available.
